

## INSTRUCTION & CARE MANUAL

Locate the waterproof compartment where the ON/OFF Switch and Battery Housing are located. Remove the compartment top by unscrewing it. Press the ON/OFF switch to illuminate the unit and press it again to turn off the lights.

### Battery Installation & Replacement

Requires: 3 x AAA Batteries

1. Open the waterproof compartment.
2. Remove the plastic tab if there is one in the compartment.
3. Check to see if the unit is operational by pressing the ON/OFF switch. If the unit does not turn, it is time to change the batteries.
4. Use a Philips screwdriver to unlock the battery housing.
5. Remove the expired AAA batteries if any
6. Insert new batteries into the housing, making sure to properly match polarities. The lights will not function if the polarities do not match up accordingly.
7. Screw the battery housing lid back on tightly.
8. Screw the plastic compartment lid back firmly into place.

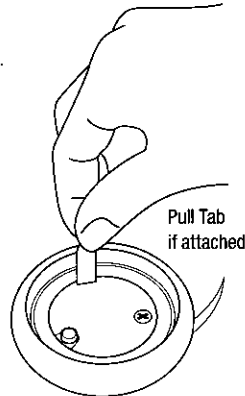

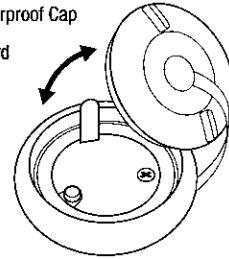

### CARE & HANDLING

- Do not submerge the unit in any liquids other than water
- Keep the unit dry when not in use
- Do not place the unit near powerful, unshielded magnets
- Do not expose the unit to extreme hot or cold temperatures
- Do not hit, drop, or smash the unit
- Do not disassemble the unit for any reason
- Remove batteries from unit when not in use
